

9107 ADJUSTED INCOME AND DETERMINATION OF RENT

9107.1 The alternative rent policy does not use adjusted income to calculate rent and Housing Assistance Payment (HAP); therefore there are no deductions or allowances applied to the gross income calculated in accordance with 14 DCMR Section 5306, and with the following exception.

- (a) As provided under Subsection 9103.1 at the initial triennial recertification only, households whose child care expenses exceed \$200 a month, gross income is reduced temporarily (for 6 months), by the amount of reasonable childcare costs above the \$200 per month.
